Farrukh Inomov

Senior Full-Stack Software Engineer

Saarbrücken, Germany | farrukhfinomov@gmail.com | inomov.online
linkedin.com/in/inomov | github.com/farrukhinomov

I build business software that holds up in daily use – from the architecture to running it at the customer. I care about clean architecture, automated tests and decisions that are written down.

Skills

Professional experience
C#, .NET, ASP.NET Core, Blazor, REST APIs, EF Core, Dapper, ORM, SQL Server, PostgreSQL, Hangfire, Integrations (OAuth2, Microsoft 365, Google), Automated testing, TeamCity, GitLab CI, Docker, Prometheus, Grafana, OpenTelemetry

Own projects – in progress From FlowPro and KRITIS GRC
React, TypeScript, JavaScript, ES6, Ant Design, Vitest, Playwright, Python, Django, FastAPI

Ways of working
AI First Development, AI-assisted Code Review & Coding Tools, Cross-team collaboration with Product Management and UX, Knowledge sharing

Experience

Senior Full Stack Software Engineer INTEX EDV-Software GmbH — Jul 2022 – present
Saarbrücken, Germany

Web applications and services around an ERP system – mostly as the sole responsible developer, from architecture to operations.

- Email delivery service with OAuth2 for Microsoft 365 and Google, in production at customers: batched sending, retries, idempotent delivery.
- Modernised an ERP configuration tool into a modular monolith with clean architecture and DDD, covered by more than 1000 automated tests.
- AI explanations and translations with local and cloud LLMs; data is shared only after consent.
- Replaced a Delphi application with one that writes to the existing database without schema changes.
- Monitoring, tracing and logging with Prometheus, Grafana and OpenTelemetry – on-premise and in the cloud.

Technologies: C#, .NET 10, ASP.NET Core, Blazor, EF Core, Dapper, PostgreSQL, SQL Server, Hangfire, Docker, Traefik, TeamCity, OpenTelemetry

Founder and owner Bazarfoods — Sep 2021 – Jun 2022
Kyiv, Ukraine

Built and ran a retail shop for organic products. Closed in 2022 because of the war; I then moved to Germany.

Software Engineer Silk Road Professionals Tajikistan — Sep 2019 – Aug 2021
Dehmoy, Tajikistan

Core team of a next-generation ERP platform for small businesses, built for Koble Systems, Inc. (USA).

- Co-developed the “Model Designer”, an event-driven UWP application (MEF) that defines dynamic server and client applications.
- Extensive business logic, consistently covered by automated tests; CI/CD and code reviews in Azure DevOps.
- Remote collaboration with the US team in English; taught .NET to students of local universities.

Technologies: C#, .NET, UWP, MEF, Azure DevOps, SQL Server, NUnit, xUnit

Co-founder Bazarfoods.ru Nov 2018 – Jul 2019
Moscow, Russia

Built and ran an online shop for dried fruit and nuts on OpenCart, including SEO and Google Ads.

Interpreter and fleet manager Ministry of Transport of the Republic of Tajikistan Dec 2016 – Nov 2018
Konibodom, Tajikistan

International road construction project: translation and interpreting (English, Russian, Tajik) and leading a team of ten drivers.

Project

KRITIS GRC – GRC SaaS prototype
Demo: grc.inomov.online | Source: github.com/farrukhinomov/kritis-grc

An independent development project for a multi-tenant governance, risk and compliance platform in the context of the KRITIS umbrella act and NIS2. The clickable React/TypeScript frontend prototype is built and uses fictional demo data. The backend connection and persistent storage with Python/Django and FastAPI are being developed step by step.

Technologies: React, TypeScript, Django, FastAPI, Ant Design, PostgreSQL, Docker

Education

Bachelor, Information Technology and Systems in Economics Sep 2012 – Jul 2016
Polytechnic Institute of the Tajik Technical University, Tajikistan

Languages

German (professional working), English (full professional), Russian (native), Tajik (native)

Driving licence

Class B (Germany)

Awards

Silver medal, National Informatics Olympiad of Tajikistan, 2012
